To observe view, there appears
 to me ³ ~~two~~ directions, — 1st
 the ascending diffusion of the
 Hermit's force in many instances
 this for centuries do not breed —
 2nd the vis medicatrix — nails
 produced on stems in man's
 flesh pricks, white part bleed out
 germination. 3rd part of buds or
 partaking of character of d^l tree ^{not coming} where
 seeds go back & take new
 characters. = 4th (p 26 growth
 & generation) are hardly distinguishable
